

NEMESI - SILT 36 ANTIDROP

Technical specifications

MODEL	NEMESI
DIMENSIONS	1.200 mm
MATERIAL	Black painted and smoked glasses
MOTOR	700 m3/h
CONTROL	Touch control 4 speeds + timer + lighting + Anti-drop system
LIGHTING	2x6W Dimmable and dynamic Led bar (2700 to 6500°K)
TECHNICAL INNOVATION	Anti-drop system *
NOISE	71 dB(A)
FILTER	Anodized aluminium filter
NET PRICE	€/unit: 2570,00

***ANTI-DROP SYSTEM**

This is an innovative anti-condensation system, based on thermal resistances inside the glass panels or the stainless steel panels.

By heating the surface in contact with the vapours coming from the induction hob, this system does not allow condensation or water drops to develop and fall on the hob.
